Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 9 is objected to because of the following informalities: It appears that, in line 9, the phrase "each of top said panels" should be changed to --each of said top panels--.
- Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 recites the limitation "the fastening element" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1 and 3 are rejected under 35 U.S.C. 102(a) as being anticipated by Huang.(US-PGPUB 2002/0088409).

Art Unit: 3644

Huang discloses a cage comprising a plurality of side panels 11-14, 21 each of which are attached to one another with a plurality of fastening elements. One of said fastening elements 141, as best viewed in Figure 3B, is located at a bottom corner of each of said panels and comprises of an apertured plate ready for pin engagement. Another type of fastening element is best viewed in Figure 5B and comprises a headed pin 211 secured to panel 21 and engaged with a key slot 212. Regarding claim 2, as best understood, headed pin 211 is considered to comprise two different sized legs creating a locking clip preventing vertical panel movement.

Allowable Subject Matter

6. Claims 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Claims 9-20 are allowed.

Response to Arguments

8. Applicant's arguments, see pp.11-12, filed 1/13/05, with respect to the 35 U.S.C. 103(a) obvious-type rejection, have been fully considered and are persuasive. The rejection of claims 4-20 has been withdrawn.

Applicant's arguments filed 1/13/05, with regard to the 35 U.S.C. 102(a) rejection of claim 1 and 3, have been fully considered but they are not persuasive. In response to the crux of applicant's arguments that "Huang does not disclose the use of a headed pin and key slot fastening in conjunction with a pin/apertured plate fastening element for attaching two side

Art Unit: 3644

panels together,” the examiner respectfully disagrees. As pointed out above, Huang discloses in Figures 3B and 5B said fastening elements used in conjunction on the cage apparatus for attaching two side panels together. Despite applicant’s assertions that it is not clear from Figure 5B that Huang discloses a pin and keyed slot connection, the examiner respectfully maintains that it is clear that element 211 is a pin that engages key slot 212 in order to couple panels 21 and 21’ together (Huang, [0017]). Finally, applicant contends that because fastening elements 221 & 212 connect a collection tray and therefore does not anticipate the claimed subject matter. The examiner draws attention to the claimed limitations of claim 1 stating, “a side panel assembly including a plurality of side panels, each of said side panels being attached to adjacent ones of said side panels with at least first and second fastening elements.” The examiner maintains that claim 1 broadly encompasses Huang’s panels 21 and 21’.

For these and the above reasons, the examiner maintains the rejections of claims 1-3.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3644

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan C. Alimenti whose telephone number is 703-306-0360.
